

Iman Yunar Noviadhi

- Full-Stack Developer & Applied AI Practitioner

Building reliable digital systems — combining rigorous full-stack software engineering depth (Laravel, Vue.js, TypeScript, PostgreSQL) with applied machine learning and a proven track record of cross-university leadership.

Laravel & Vue.js

TypeScript & Next.js

PostgreSQL

Applied AI & Python

Executive Summary & Value Proposition

A dedicated technologist bridging solid engineering practices with strategic organizational leadership.

PROFESSIONAL BACKGROUND

Undergraduate Computer Science student at Universitas Negeri Semarang with extensive hands-on experience in production web application development. Proven track record architecting robust database solutions and full-stack systems using Laravel, Vue.js, TypeScript, and PostgreSQL.

Demonstrated capability to combine technical execution with academic research rigor and organizational governance. Adaptable communicator experienced in cross-institutional study programs and international student mobility.

"Driven to deliver verifiable impact through rigorous testing, robust engineering, and AI-enabled innovation."

100%

QA PASS RATE

77 Black-Box test scenarios passed with zero defects

2×

EVENT CHAIRPERSON

Led cross-university comparative studies with UNESA & UB

1

JOURNAL PUBLICATION

Corresponding author on AI chatbot research in UNNES Journal

Top 10

NATIONAL FINALIST

Activation 7.0 National Academic Essay Competition

ENGINEERING RIGOR

Full-stack development with disciplined black-box testing and reliable database modeling.

APPLIED INTELLIGENCE

Practical integration of Python, machine learning workflows, and data-informed decision making.

COLLABORATIVE LEADERSHIP

Cross-university event chairmanship, department administration, and international mobility.

Professional Experience & Leadership Trajectory

Demonstrated delivery across software engineering, academic research, and institutional governance.

- 01

Web Developer Intern

FEB – JUL 2026

PT Teknologi Aplikasi Sejahtera • [Corporate Internship](#)

Engineered Document Management System using Laravel, Vue.js, TypeScript, and PostgreSQL. Achieved 100% pass rate across 77 Black Box test scenarios. Rated EXCELLENT by corporate supervisor.
- 02

Secretary, Public Relations Dept

FEB – NOV 2025

UKMP, Universitas Negeri Semarang • [Department Leadership](#)

Served as Event Chairperson for 2 major cross-university comparative study visits with Universitas Negeri Surabaya (UNESA) and Universitas Brawijaya (UB). Managed stakeholder communications.
- 03

Inbound Virtual Student Mobility

JUL – SEP 2026

Universiti Tun Hussein Onn Malaysia (UTHM) • [International Mobility](#)

Completed international academic exchange in computer science, participating in cross-border technical discussions and collaborative coursework.
- 04

Staff, Internal & Organizational Supervision

APR – DEC 2024

ISAFIS (Indonesian Student Association for International Studies) • [Organizational Governance](#)

Engineered secure online voting system for presidential election, ensuring ballot integrity and transparency. Contributed to institutional governance policies.
- 05

Corresponding Author & Lead Researcher

AUG 2023 – FEB 2024

UNNES Journal • [Academic Research](#)

Authored and published scientific article investigating AI chatbot instructional efficacy in university Operating Systems education.

EXECUTION HIGHLIGHTS

5 Key

Milestones & Responsibilities

Industry Delivery
Built production DMS with strict QA

Global Mobility
International exchange with UTHM

Peer-Reviewed Science
Published lead author in UNNES Journal

Team Leadership
Led 2 comparative study delegations

Combines high-discipline software architecture with proven communication leadership.

Technical Architecture & Competency Matrix

Comprehensive full-stack engineering capabilities categorized by layer, stack, and proficiency.

FRONTEND ENGINEERING Modern Web & Interactive UIs	BACKEND & DATABASE APIs, Security & Data Modeling	APPLIED AI & DATA Machine Learning & Analytics
Next.js & React App Router, SSR, Server Components ADVANCED	Laravel / PHP Eloquent ORM, Auth, MVC architecture ADVANCED	Python Automation scripts, data pipelines ADVANCED
TypeScript Type safety, generics, interfaces ADVANCED	RESTful API Design Clean contracts, Swagger documentation ADVANCED	Data Analytics Pandas, NumPy, exploratory analysis PROFICIENT
Vue.js Composition API, Pinia state management PROFICIENT	PostgreSQL / MySQL Schema design, indexing, optimization PROFICIENT	Machine Learning TensorFlow, PyTorch, model testing COMPETENT
TailwindCSS Design tokens, responsive layouts ADVANCED	Docker & Linux Containerized setups, shell workflows COMPETENT	AI / LLM Workflows Prompt engineering, API integration PROFICIENT

12+ TECHNOLOGIES Spanning modern frontend, backend, databases, and applied AI.	TESTING DISCIPLINE 100% verified test scenarios and clean code conventions.	BILINGUAL COMMUNICATION English (Professional working proficiency) & Indonesian (Native).
--	---	---

Academic Honors, Competitions & Certifications

Documented verification of analytical rigor, scientific communication, and cloud infrastructure knowledge.

PEER-REVIEWED PUBLICATION

PUBLISHED

Corresponding Author & Lead Researcher
UNNES Journal | Published Feb 2024

Published empirical study examining AI chatbot pedagogical efficacy in computer science higher education (Operating Systems course). Conducted statistical analysis and literature synthesis.

NATIONAL COMPETITION

FINALIST

Top 10 Finalist — Activation 7.0
HIMADIKA National Essay Competition | 2024

Recognized nationally among university students for analytical writing addressing technological literacy and modern educational reform.

NATIONAL COMPETITION AWARD

5TH PLACE

5th Place Award — MEDISPRO Essay
MEDISPRO Academic Symposium | 2025

Awarded 5th place nationally for structured academic inquiry regarding technological integration, health data systems, and policy innovation.

INDUSTRY CERTIFICATION

CERTIFIED

Cloud & DevOps Fundamentals
Dicoding Indonesia x Amazon Web Services (AWS)

Mastered foundational AWS cloud infrastructure, CI/CD pipeline automation, virtualization, and reliable containerized application hosting.

Verified Commitment to Technical Excellence & Academic Rigor
From peer-reviewed publication to national competitive writing and industry cloud certification, each milestone demonstrates consistent quality and dedication.

Let's build reliable, high-impact systems together.

Available for software engineering roles, technical internships, and innovative AI-driven development.

DIRECT EMAIL

imanyunar@gmail.com
